Techfest—RESONANCE 25

Event: IDEATHON 3.0

The halls of Gokaraju Rangaraju Institute of Engineering and Technology (GRIET), Hyderabad, buzzed with energy as CSI GRIET hosted the highly anticipated Techfest—RESONANCE 25. A hub of innovation and technological brilliance, the festival brought together passionate minds from across the country. Among its stellar lineup of events, one competition stood out as the epicenter of creativity and groundbreaking ideas — Ideathon 3.0.

This two-day innovation event was more than just a contest; it was a launchpad for visionaries to push the boundaries of technology, collaborate with like-minded people, and develop solutions with the potential and feasibility to transform the world. With unwavered enthusiasm and a shared commitment to progress, participants embarked on a thrilling journey of ideation, problem-solving, and technological advancement—making Ideathon 3.0 the ultimate ground for the innovators of tomorrow.

From the very beginning, Ideathon 3.0 was more than just a display of technical brilliance—it was a celebration of ingenuity, collaboration, and the relentless spirit of innovation. Fueled by a shared vision to drive real-world impact, teams tackled a diverse range of challenges, from sustainability breakthroughs to disruptive technologies, each idea brimming with the potential to reshape the future. As the event unfolded, the air buzzed with energy and anticipation. Intense brainstorming sessions, late-night caffeine-fueled discussions, and electrifying moments of discovery defined the experience. With expert mentors guiding the way, participants pushed boundaries, refined their ideas, and transformed concepts into groundbreaking solutions.

When the final presentations concluded and the curtains fell on Ideathon 3.0, a profound sense of accomplishment filled the air. Participants walked away not just with innovative solutions but with renewed inspiration, invaluable connections, and the unwavering belief that they could change the world. Looking ahead, Ideathon 3.0 leaves behind more than just memories—it ignites a movement. A movement that enhances creativity, embraces challenges, and fuels the next wave of technological transformation. As we step into the future, let's carry forward this unstoppable momentum—innovating, collaborating, and daring to push the boundaries of what's possible.

Summary

Ideathon 3.0, hosted by CSI-SB, GRIET as a flagship event of Techfest RESONANCE 25, brought together 29 dynamic teams of tech visionaries, all eager to showcase groundbreaking solutions.

Adding prestige to the event was the esteemed Mr. Divya Sagar, who served as the judge, bringing his industry expertise to evaluate the projects, provide insightful feedback, and challenge participants to refine their innovations.

After a series of intense presentations, the most exceptional ideas emerged victorious— earning prestigious recognition, certificates of achievement, and well-deserved prize money. But beyond the awards, Ideathon 3.0 was a forge of creativity and problem-solving, where participants not only pushed the boundaries of technology but also forged meaningful connections and sharpened their vision for the future.

In the end, Ideathon 3.0 was more than just a competition—it was a launchpad for innovation. As participants departed, they carried with them newfound inspiration, a drive to innovate, and the unshakable belief that their ideas could shape the future of technology.

GRIET-CSI-SB Techfest—RESONANCE 25

Event: CODE & LADDERS 2.0

The Computer Society of India (CSI) Club – GRIET chapter once again set the stage for an electrifying showdown of logic, strategy, and coding brilliance with the highly anticipated **Code & Ladders 2.0**. A perfect fusion of skill and strategy, this thrilling competition challenged participants to navigate their way through a unique coding-based rendition of the classic Snakes and Ladders, putting their programming expertise to the ultimate test.

The event unfolded in three exhilarating rounds, each designed to push contestants beyond their limits. Precision, logic, and quick thinking became their strongest weapons as they battled to climb their way to the top. The final round raised the stakes even higher—a high-intensity HackerRank coding contest, where only the sharpest minds and fastest coders could conquer complex algorithmic challenges and claim the title of Code & Ladders 2.0 Champion.

From the first roll of the dice to the final lines of code, Code & Ladders 2.0 was more than just a competition—it was a thrilling test of intellect, resilience, and strategic problem-solving. As the event came to a close, participants walked away not just with a sense of achievement and recognition, but with renewed motivation, strengthened skills, and the determination to push the boundaries of their coding potential.

As we look ahead, Code & Ladders 2.0 leaves behind a legacy of innovation, competition, and unrelenting pursuit of excellence.

GRIET-CSI-SB Techfest—RESONANCE 25

Event: CODERACE

The CodeRace competition was an electrifying display of problem-solving, algorithmic mastery, and coding ingenuity. Participants demonstrated their expertise in data structures, algorithms, and optimization techniques, competing to solve complex programming challenges under pressure.

Contestants faced unique problem statements that tested their ability to write efficient code, debug errors, and optimize performance. As the clock ticked down, they raced against both time and their fellow coders, crafting solutions that were not only correct but also optimized for speed and memory efficiency.

Throughout the competition, the atmosphere crackled with energy as participants pushed the limits of their logical thinking and technical skills. As the contest reached its climax, the best problem solvers emerged victorious, celebrated for their coding mastery and strategic approach to tackling challenges.

The CodeRace competition served as a battleground for innovation, a platform for programmers to showcase their skills, challenge themselves, and inspire others in the ever-evolving world of competitive programming.

Summary	<p>CodeRace, the ultimate one-round coding sprint for third-year students at RESONANCE 25, was nothing short of an adrenaline rush! Participants raced against time and each other to crack a series of challenging programming problems. Every second counted, and every line of code had to be sharp, efficient, and error-free. The pressure was real, but so was the thrill! As submissions rolled in, only the fastest and most precise coders claimed the top spots, earning recognition, rewards, and major bragging rights.</p> <p>At its core, CodeRace wasn't just about winning—it was about pushing limits, thinking fast, and embracing the rush of competitive coding. One round. One shot. Endless excitement.</p>

Event: MOCK CID

The Mock CID event was an exhilarating test of investigative acumen, logical reasoning, and forensic deduction. Participants stepped into the shoes of detectives, analyzing clues, interrogating suspects, and piecing together intricate puzzles to crack the case.

Each team was presented with unique crime scenarios that challenged their ability to think critically, connect evidence, and unveil hidden truths. As the investigation progressed, they raced against time, sharpening their deduction skills and applying strategic problem-solving techniques to uncover the real culprit.

The atmosphere was charged with suspense and excitement as participants navigated through twists and turns, uncovering new leads and eliminating false trails. As the event reached its thrilling conclusion, the sharpest minds emerged victorious, celebrated for their keen observational skills, logical deductions, and unwavering determination.

The Mock CID event was more than just a competition—it was a battleground for intellect, a stage for aspiring detectives to test their investigative prowess, and a reminder that every clue matters in the pursuit of the truth.

Event:IDEAQUEST

IdeaQuest was an inspiring initiative organised in collaboration with AIESEC and IIT Hyderabad, attracting a vibrant mix of participants eager to share their innovative ideas through compelling PowerPoint presentations. This event provided more than just a competitive arena; it was a unique opportunity to explore advanced technological concepts and propose solutions to reshape our future, encouraging participants to think outside the box and challenge conventional wisdom.

From the start, it was evident that **IdeaQuest** transcended a simple showcase of technical abilities; it celebrated creativity and the relentless pursuit of progress. Teams immersed themselves in diverse challenges, ranging from sustainable practices to disruptive innovations, all united by a shared passion for driving impactful change. The energy in the venue was palpable, as participants engaged in spirited brainstorming sessions, energised by coffee and the thrill of possibility, fostering an environment where every idea was valued and considered.

As the event drew to a close, a sense of pride and accomplishment filled the air. Participants left inspired and enriched by their experiences of pushing the boundaries of innovation and contributing their ideas for the future. Looking back on **IdeaQuest**, it became clear that it was not just an event but a celebration of the limitless potential of human creativity and the transformative power of technology, reinforcing the importance of collaboration in addressing the complex challenges we face today. As we advance, let us embody the spirit of **IdeaQuest**—embracing challenges, fostering collaboration, and continuously striving to push the limits of innovation, ensuring that our collective efforts lead to meaningful and lasting change in society.

Target Audience (Teaching Faculty/ Non-Teaching Faculty/ Students)	Students
No.of Participants	125 Members
Summary	On September 28, 2024, CSI, in collaboration with AIESEC, hosted IdeaQuest, a dynamic competition that brought together 38 teams of tech enthusiasts, each eager to showcase innovative solutions. The event featured two rounds, with Round 1 serving as a preliminary stage to select participants

	<p>for the upcoming Hack4SDG at IIT Hyderabad. Round 1 was held on the GRIET campus.</p> <p>The competition was honoured by the presence of esteemed judge Moinuddin Shabash Amir Khan, whose expertise greatly enriched the evaluation process. His insightful feedback offered participants valuable perspectives on their presentations.</p> <p>After intense deliberations, the top seven teams were selected to advance to Round 2. These teams were recognised for their outstanding contributions, receiving certificates of merit and the opportunity to continue their journey at Hack4SDG.</p> <p>IdeaQuest fostered an environment of creativity, collaboration, and innovation, pushing participants to explore new frontiers in technology. It provided a platform where groundbreaking ideas were shared, connections were forged, and the pursuit of excellence was ignited. The event inspired and motivated participants to continue their journey towards making a real-world impact.</p>
Program Outcomes	<p>PO1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialisation to the solution of complex engineering problems.</p> <p>PO2. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and the cultural, societal, and environmental</p>

	<p>considerations.</p> <p>PO3. Conduct investigations of complex problems: Use research- based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.</p> <p>PO4. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.</p> <p>PO5. The engineer and society: Apply to reason informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.</p>
Program Specific Outcomes	<p>PSO1: Apply the acquired knowledge and skill, to deliver inventive solutions to social, economic and technological challenges, which leads to our nation's growth.</p>

Event:CODE AND LADDERS

"Code and Ladders" was an electrifying event that merged the thrill of competition with the art of problem-solving. This snakes-and-ladders-inspired coding challenge attracted programming enthusiasts eager to test their skills innovatively. The event featured three elimination rounds: the first challenged participants with basic coding MCQs, the second involved pseudocode questions, and the third was a coding contest on the HackerRank platform.

Correct answers allowed players to climb the ladder, while wrong ones meant elimination, creating a dynamic and engaging experience.

Each round added its unique twist, creating a thrilling atmosphere that tested logic and strategy. Participants immersed themselves in intense problem-solving, exchanging ideas and strategies while navigating the highs and lows of the competition. The format fostered an environment of collaboration and camaraderie, turning the event into more than just a game—it celebrated growth, innovation, and the coding community.

As the event concluded, the winners emerged as a testament to resilience and creativity. Beyond the victories, participants left inspired and motivated, enriched by their experiences. "Code and Ladders" was not just a competition but a celebration of ingenuity and teamwork, showcasing the limitless possibilities in programming.

Summary

"Code and Ladders" was an exciting and innovative coding competition that combined the thrill of problem-solving with a

snakes-and-ladders-inspired game format. The event featured three elimination rounds, each designed to test participants' skills, adaptability, and quick thinking. In the first round, players faced basic coding MCQs, where only correct answers allowed them to climb the ladder. The second round involved pseudocode challenges, with teams competing for higher scores to advance. The final round was a high-stakes coding contest on HackerRank, where teams raced to solve as many problems as possible within the time limit.

The event stood out for its engaging format, which tested both technical knowledge and strategic decision-making. Participants collaborated, exchanged ideas, and showcased their determination while navigating the ups and downs of the competition. Each round offered a unique experience, fostering a spirit of growth, camaraderie, and a shared passion for coding.

By the end of the event, the winners emerged as a testament to resilience and creativity, earning well-deserved recognition. Beyond the competition, "Code and Ladders" left participants inspired, motivated, and enriched by their experiences, celebrating the limitless potential of programming and innovation.

<p>Program Outcomes</p>	<p>PO1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialisation to the solution of complex engineering problems.</p> <p>PO2. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and the cultural, societal, and environmental considerations.</p> <p>PO3. Conduct investigations of complex problems: Use research-based knowledge and research methods including the design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.</p> <p>PO4. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.</p> <p>PO5. The engineer and society: Apply to reason informed by the contextual knowledge to assess societal, health,</p>
--------------------------------	--

	<p>safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.</p>
<p>Program Specific Outcomes</p>	<p>PSO1: Apply the acquired knowledge and skill, to deliver inventive solutions to social, economic and technological challenges, which leads to our nation's growth.</p>

RESONANCE 2023

Nature of the Event (Workshop/Guest Lecture/Seminar/Membership Drive/Training Program/FDP/Talk GD/Quiz/Presentation/Student Body Meeting)	TECHNICAL FEST
Title/Theme of the Event	RESONANCE 2023
Details of CSI SB Counsellor	Dr. S. Govinda Rao, Professor, Department of CSE
Details of Nominee Faculties	Mr . V. Srinivas Ms . Bh Prashanthi Ms . D . Usha Sree
Details of CSI President	Kanchi Mishra Student (CSBS 3 rd Year)
Date on which Event is held	3 rd -4 th February, 2023

Attendees	Judges for Project Expo and Ideathon, UG Students from all the years, and Students from other institutions.
Summary	<p>The technical fest "Resonance" was a platform for students to showcase their technical skills and knowledge. The event was held over two days, on 3rd and 4th February, and was packed with various technical activities and competitions.</p> <p>One of the highlights of the event were the two mega events - Project Expo and Ideathon. The Project Expo was a competition where participants from various colleges displayed their projects and were evaluated by a panel of judges on various metrics. The Ideathon was an event where participants put forth their innovative ideas and received feedback and guidance from experts in the field.</p> <p>The event also included workshop on blockchain conducted by Ajinkya Lohakare, the CTO and founder of DITTO Security. The workshop provided an opportunity for attendees to learn about blockchain technology, its applications, and its future prospects. Ajinkya Lohakare, with his extensive experience in the field of cybersecurity, was able to impart valuable knowledge and insights into the technology.</p> <p>Another workshop was on Photoshop and After Effects, which was conducted by Koushik Ayireni, a shortfilm director and VFX artist at Shreyas Media. The workshop provided attendees with a hands-on experience in using the software for visual effects and image editing. Koushik Ayireni, with his expertise in the field, was able to provide valuable tips and tricks to attendees.</p> <p>In addition to these, there were other technical events such as Code Hunt, which</p>

	<p>consisted of debugging and blind coding challenges, Shape It Up, where participants were asked to come up with a drawing of a robot with certain restrictions, and Sci Tech Trivia, which was a multi-level quiz competition based on science and technology.</p> <p>In conclusion, the technical fest "Resonance" provided a platform for attendees to showcase their technical skills, learn from experts in the field, and participate in various competitions. The event was well-received by attendees and was deemed a success overall.</p>
No.of participants	<p>Project Expo- 88</p> <p>Ideathon- 45</p> <p>Workshops- 70</p> <p>Code Hunt- 80</p> <p>Shape IT UP-15</p> <p>Sci Tech Trivia-14</p> <p>Overall Participants-312</p>

<p>Attained PO 's</p>	<p>PROGRAM OUTCOMES (POS) Engineering Graduates will be able to:</p> <p>PO1. Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization for the solution of complex engineering problems.</p> <p>PO2. Problem analysis: Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.</p> <p>PO3. Design/Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental considerations.</p> <p>PO5. Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.</p> <p>PO9. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.</p> <p>PO10. Communication: Communicate effectively on complex engineering activities with the engineering community and with the society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.</p> <p>PO12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.</p> <p>PROGRAM SPECIFIC OUTCOMES(PSOs) At the end of the program</p> <p>PSO1: Emerging Technologies: Apply the concepts of Computer Science and Engineering to learn the emerging technologies and to develop inventive solutions.</p>

Details of Nominee Faculties	Mr. V. Sreenivas Ms. Bh Prashanthi Ms. D. Usha Sree
Details of CSI President	Kanchi Mishra Student (CSBS 3 rd Year)

Date on which Event is held	26 th November
Attendees	Assistant Commissioner of Police (Cybersecurity Department), Cybersecurity Experts, UG Students from first year, and Students from other institutions.
Summary	<ul style="list-style-type: none"> • The workshop was organised by End Now Foundation. It is India's first non-profit organization, advocating for better Internet Ethics and Digital Wellbeing. • The workshop dealt with addressing the rising concerns on Cybercrimes in the modern ages. • Speakers from various domains addressed the issue from their varied perspectives. They provided their viewpoints as to why the problem arises and what could be the possible methodologies that the internet and smartphone users can equip themselves with, to tackle them. • Several dignitaries graced the event, S. Harinath, ACP; Anil Rachamalla, Founder and CEO of End Now Foundation, Chary, a Cybersecurity specialist, and Alekhya, a Cybersecurity specialist were few of them. • CSI GRIET sponsored the workshop and CSI EB members volunteered in carrying out the event. • All the guests and attendees appreciated the club's efforts in conducting the workshop successfully and were happy for having a good learning time at the workshop.

Number of participants	150
------------------------	-----

PO's Attained	<p>At the end of the Programme the student is able to,</p> <p>PO5: Ability to identify, formulates, and solve engineering problems.</p> <p>PO11: Ability to utilize experimental, statistical, and computational methods and tools necessary for engineering practice.</p> <p>PO12: Ability to create and or use Computer Science and Engineering related software tools, to get employment and succeed in higher studies.</p>

CODIGO 2.0

Nature of the Event (Workshop/Guest Lecture/Seminar/Membership Drive/Training Program/FDP/Talk GD/Quiz/Presentation/Student Body Meeting)	Coding Contest
Title/Theme of the Event	CODIGO 2.0(offline)
Details of CSI SB Counsellor	Dr. S.Govinda Rao, Professor, Department of CSE
Details of Nominee Faculties	Mr. V. Srinivas Ms. Bh. Prashanthi Ms. D. Usha Sree
Details of CSI President	Kanchi Mishra Student (CSBS 3 rd Year)
Date on which Event is held	22 nd October, 2022
Attendees	Students
Summary	<ul style="list-style-type: none">• An offline coding contest – CODIGO 2.0, was conducted by CSI GRIET.• Registrations for the event were done through help desk set up at the college premises. There were 153 registrations in total. Participants included students from all branches and years.• Coding Platform used – Hacker Rank• The contest was held in two rounds: round 1 was

	<p>conducted from 10:00 am- 11:30 am.After round 1, 83 participants were considered for round 2.</p> <ul style="list-style-type: none">● A doubt resolving session on round 1 was held for other participants who could not advance to round 2.● The second round commenced from 12:45pm-2:15 pm.● Students participated actively.● Top performers were given Merit Certificates and cash prize.

PARENTING IN THE DIGITAL AGE (WORKSHOP)

Nature of the Event (Workshop/Guest Lecture/Seminar/Membership Drive/Training Program/FDP/Talk GD/Quiz/Presentation/Student Body Meeting)	Workshop
Title/Theme of the Event	Parenting In The Digital Age Is Tough. Fact Or Fiction?
Details of CSI SB Counsellor	Dr.K.Madhavi, HOD& Professor, Department of CSE
Details of Nominee Faculties	Dr. Y. Krishna Bhargavi Mr. G. Anil Kumar Ms. B.Sindhuja
Details of CSI President	Dhanamjaya Pochiraju Student(CSE 3 rd Year)
Date on which Event is held	25 th June 2022
Attendees	Psychologists, Cyber Police officers, Cyber Lawyers, Journalists, Academicians, IT Experts, Social Media Influencers, Parents, UG Students from the first year, and Students from other institutions.
Summary	<ul style="list-style-type: none">• The workshop was organised by End Now Foundation. It is India's first non-profit organization, advocating for better Internet Ethics and Digital Wellbeing.• The workshop addressed the rising concerns about parenting in this digital age.

	<ul style="list-style-type: none"> • Speakers from various domains addressed the issue in their perspective. They provided their viewpoints as to why the problem arises and what could be the possible methodologies that parents can equip themselves with on order to tackle them effectively. • Several dignitaries graced the event, Vijay Kumar, IPS; TS Sudhir, educator turned journalist and Uma Sudhir, NDTV journalist were few of them. • Number of attendees:70 • All the guests and attendees appreciated the arrangements made. The workshop was successfully.
PO's Attained	<p>At the end of the Programme the student is able to,</p> <p>PO 6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to the professional engineering practice.</p> <p>PO 8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.</p>

MEMBERSHIP DRIVE- 2022

Nature of the Event (Workshop/Guest Lecture/Seminar/Membership Drive/Training Program/FDP/Talk GD/Quiz/Presentation/Student Body Meeting)	Membership Drive - 2022
Title/Theme of the Event	CSI Membership Drive
Details of CSI SB Counsellor	Dr.K.Madhavi, HOD & Professor, Department of CSE
Details of Nominee Faculties	Dr. Y. Krishna Bhargavi Mr. G. Anil Kumar Ms. B.Sindhuja
Details of CSI President	Dhananjaya Pochiraju Student(CSE 3 rd Year)
Date on which Event is held	9 th June 2022 – 10 th June 2022
Attendees	UG students from all the years and branches.
Summary	<ul style="list-style-type: none">• CSI conducted the membership drive for the students of all years and across all the branches.• Announcements regarding the membership drive were made in all the class rooms.• Students were made aware about all the perks of being a member at CSI.

	<ul style="list-style-type: none"> • Many students enthusiastically came forward and registered themselves as a member of the student body. • The membership drive lasted for two days. • All the EB members participated actively in this process. • The marketing team put its best foot forward and made sure that no stone was left unturned. • Number of students registered:170 CSE - 58 AIML - 36 CSDS - 15 CSBS - 44 ECE - 6 CIVIL- 1 IT-10 • The membership drive was successful. A good number of students got registered into the CSI GRIET student body.
PO's Attained	<p>At the end of the Programme the student is able to</p> <p>PO8: Apply professional and ethical responsibility with the norms of engineering.</p> <p>PO9: Contribute as individual and able to work with any multi-disciplinary teams for achieving the targeted goal towards organizational growth.</p>

Cyber Security And Ethical Hacking

Nature of the Event (Workshop/Guest Lecture/Seminar/Membership Drive/Training Program/FDP/Talk GD/Quiz/Presentation/Student Body Meeting)	Workshop(Offline)
Title/Theme of the Event	Cyber Security And Ethical Hacking
Details of CSI SB Counsellor	Dr. K. Madhavi, HOD & Professor, Department of CSE
Details of Nominee Faculties	Dr. Y. Krishna Bhargavi Mr. G. Anil Kumar Ms. B.Sindhuja
Details of CSI President	Dhanamjaya Pochiraju Student(CSE 3 rd Year)
Date on which Event is held	4 th and 6 th June 2022
Attendees	1 st year and 2 nd year students.
Summary	<ul style="list-style-type: none">• CSI conducted a two-day offline workshop on Cyber Security and Ethical Hacking.• Speaker: Mr.Ajinkya Lohakare, is a certified cyber security expert, ethical hacker and penetration tester.

	<ul style="list-style-type: none"> • The speaker covered many topics related to cybersecurity. • He helped the participants understand the possible threats and provided them with methods to keep their data safe. • Introduced several softwares and services which can help in practicing ethical hacking. • He gave a real time demonstration and made the participants implement the same. • Number of students who attended the seminar:100 • The workshop was very interactive. The participants had a hands-on experience working in real time.
PO's Attained	<p>At the end of the Programme the student is able to,</p> <p>PO3Identify, design, formulate and the impact of engineering solutions to develop a viable solution in a global, economic, environmental, and societal context.</p> <p>PO5: Identify, Select and to apply modern software tools, and utilize resources to find solutions for complex engineering problems.</p> <p>PO7: Design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.</p> <p>PO11: Converge the Engineering, knowledge and skill, to manage multi-disciplinary environmental projects within the permitted financial boundary and time.</p> <p>PO12: Recognize and predict the future technological change, and adopt to focus on preparing and engaging in life-long learning.</p>

TRIATHLON

Nature of the Event (Workshop/Guest Lecture/Seminar/Membership Drive/Training Program/FDP/Talk GD/Quiz/Presentation/Student Body Meeting)	Competition
Title/Theme of the Event	TRIATHLON
Details of CSI SB Counsellor	Dr.K.Madhavi, HOD& Professor, Department of CSE
Details of Nominee Faculties	Ms. Y. Krishna Bhargavi Mr. G. Anil Kumar Ms. B.Sindhuja
Details of CSI President	DhanamjayaPochiraju Student(CSE 3 rd Year)
Date on which Event is held	12 th February, 2022
Attendees	1 st year and 2 nd year UG students.
Summary	<ul style="list-style-type: none">• CSI conducted a competition online• Registrations for the event were done through google forms. There were 100 registrations, including students from all the branches. Out of which 70 students participated in the event.• The event started at 3:00 PM and ended at 8:00 PM.• Triathlon was a 3 round game where participants

	<p>had to jump through hoops to take the prize with elimination after every round.</p> <ul style="list-style-type: none"> • 1st round - Start/Stop - is a Kahoot quiz covering various topics. • 2nd round - Treasure Hunt - The top candidates from 1st round were divided into different teams. They were given a set of fun riddles which they had to crack and discuss the answer among themselves and ultimately show the 'treasure' on camera within the time limit. • 3rd round - Throw your shot - The winning team from 2nd round qualified for the final round where participants were given a list of companies and they had to present their ideas and showcase their speaking capabilities and cognition. • After the last round, the top 5 participants were declared as the winners and merit certificated were given to them. • Overall, it was a brain storming, fun and interactive event. Participants had thoroughly enjoyed taking part in it.
PO's Attained	<p>At the end of the Programme the student is able to,</p> <p>PO1: Apply knowledge of mathematics, science, and engineering fundamentals to solve complex Engineering problems.</p> <p>PO5: Identify, Select and to apply modern software tools, and utilize resources to find solutions for complex engineering problems.</p> <p>PO9: Contribute as individual and able to work with any multi-disciplinary teams for achieving the targeted goal towards organizational growth.</p>

Target Audience (Teaching Faculty/ Non-Teaching Faculty/ Students)	CSI Members
Summary	"OUT OF BOX CODING" was a technical session conducted on this Friday. This session was a competitive coding where we helped the students to improve their problem-solving skills by exposing them to different approaches and made Solve hand fully picked problems to take their coding skills to the next level. It is a free event and was exclusively for CSI members.

31st January 2020

To
The Principal
GRIET

Subject: Request to conduct CSI-Annual Technical Symposium "Resonance 2020".

Respected Sir,

We the core committee of CSI-SB request your approval to conduct annual technical symposium of CSI GRIET-SB "Resonance 2020" on ^{20 21} ~~13th and 14th~~ of March 2020.

The main motto of the event is to "Explore Engineering".

20th & 21st March 2020

SB members and/or senior students will be conducting the workshops and guiding the audience throughout the **2 days**. The visiting audience would get an opportunity to learn new skills and proficiencies which will add up to their resume.

A detailed list of events (technical and ~~non-technical~~) to be conducted will be prepared and forwarded.

Thanking you,
Yours sincerely,
CSI-SB.

M. S. S. S.
31/1/2020

*20th can be only workshop
21st can have workshop + technical events*

J. Banerjee

*Madam. as per diary.
Schedule 22nd Feb-2020
is the event. If
In March conduct on 3rd Saturday
i.e. 21st March. (20th & 21st March)*

J. Banerjee
31/1/2020

*HOD CSE.
Could you discuss
with ~~DSA~~
not to have
ISTA Aera on
21st Mar*

RESONANCE 2020

CSI-INDIA:

The seed for the Computer Society of India(CSI) was first sown in the year 1965 with a handful of IT enthusiasts who were a computer user group and felt the need to organize their activities. They also wanted to share their knowledge and exchange ideas on what they felt was a fast emerging sector.

Today the CSI takes pride in being the largest and most professionally managed association of and for IT professionals in India. The purpose of the Society is to inculcate scientific and educational skills which is directed towards the advancement of the theory and practice of Computer Science and IT.

CSI-GRIET SB:

The CSI GRIET-SB was established in the year 2014. It has been working to make its students acquainted with the latest technology. Our winsome group aims to develop skills among students in all aspects. CSI GRIET-SB with great erudition spotlights the latest and imminent technology from across the globe.

We are committed to the advancement of research, development, training, and education in the School of Computing under CSI and percolate benefits and knowledge to all sections of the CSI SB. In the year 2018-19, CSI-SB grew tremendously as over 160 students joined hands with CSI forming a chain of above 500+ student members. We intend to provide bright ideas and keep the Student Branch vibrant.

CSI Student Chapter organizes many events which are a collection of knowledge, learning, and fun-filled technical and non-technical events.

GOKARAJU RANGARAJU

INSTITUTE OF ENGINEERING AND TECHNOLOGY

COMPUTER SOCIETY OF INDIA

ABOUT RESONANCE:

Resonance is an innovative platform witnessing ideas turning into actions, Workshops transforming passive listening into interactive learning and a plethora of events and activities under the banner of Technology for quenching the thirst of Techno-maniacs spreading across a span of 2 days on 18th and 19th January, 2019.

This mega fest was an amalgamation of technical and non-technical events. The targeted audience were all the students irrespective of their branch or year. Workshops included latest trending technologies, follows.

Machine Learning: Machine learning is an application of artificial intelligence (AI) that provides systems the ability to automatically learn and improve from experience without being explicitly programmed. Machine learning focuses on the development of computer programs that can access data and use it to learn for themselves.

Ethical Hacking: Gain the ability to do ethical hacking and penetration testing by getting into this workshop, learn in this course about installing Kali Linux, using VirtualBox, basics of Linux, Tor, Proxychains, VPN, Macchanger, Nmap, cracking wifi, aircrack, DoS attacks, SLL strip, known vulnerabilities, SQL injections, cyber laws, phishing and more topics.

Web Development: Web development is the work involved in developing a web site for the Internet or an intranet. Web development can range from developing a simple single static page of plain text to complex web-based internet applications, electronic businesses, and social network services.

GOKARAJU RANGARAJU

INSTITUTE OF ENGINEERING AND TECHNOLOGY

COMPUTER SOCIETY OF INDIA

App Development using Flutter: Flutter is the new Cross-platform Mobile Development Framework created by Google, which allows developers to build Android and iOS Apps. Well, Flutter is game-changing because any developer (or anyone who wants to learn mobile development) can now build Native Android and iOS apps with one codebase ONLY! Which means, instead of having to learn Objective-C or Swift to build iOS apps, and Java, or Kotlin to build Android apps, you can now use Flutter Mobile Development Framework to build apps that run Natively on both iOS and Android devices using the General-purpose Dart Programming Language.

Technical Events: We had some mind blending technical events which focussed more on enhancing the students code base in C programming. Apart from that some other events like Kahoot (a technical quiz game) and code-a-thon were also conducted. Also a paper presentation contest was also conducted.

Non Technical Events: Many intriguing and fascinating non technical events like virtual mania, pictionary, pubg, dark cricket etc were held.

For **Resonance 2020** we have come up with several innovative and different ideas which will inculcate several beneficial and will percolate the essence technical skills in the young and erudite brains of the students.

<p>Summary of the event</p>	<p>Smart India Hackathon 2020 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving. The main motive of sih is to Harness creativity & expertise of students, Spark institute-level hackathons, Build funnel for 'Start-up India' campaign, Crowdsource solutions for improving governance and quality of life and Provide opportunity to citizens to provide innovative solutions to India's daunting problems. This year CSI had the great opportunity to associate with the college to conduct the internal hackathon for SIH2020. Around 20 teams got registered for the event out of which 2 hardware solutions and 5 software solutions were selected.</p>

Summary of the event

Computer Society of India held its 53rd Annual Convention at KIIT Bhubaneshwar, Orissa. It was a three-day event starting from 16th January till 18th January 2020. We went on the last day of the event for attending the technical talks, panel discussions, and the valedictory session. The last day started with a seminar on the topic "Security in Cyber Governance" with Dr. R. N. Behara being the session chair. The panel shared some great insights on the importance of cybersecurity in the country and how it's going to pave a great path for engineers as a career option. Then at 10.15 am we had a panel discussion on e-Governance with few technical sessions also being conducted parallelly in other conference halls. Then at 12 pm, there was an all-important CSI Annual General Body Meeting at the auditorium where all the CSI office bearers had a discussion about the future of CSI and how CSI can influence the society in a much better way and with much more improved efforts and plans. At 1 pm we had lunch followed by a session on "Connecting the unconnected panel" at 2 pm. Then at 3 pm, we had the valedictory and award ceremony at the KIIT auditorium where our ex-president Balram Nenavath was awarded the "Highest Committed Student Activist" award on the hands of Mike Hinchey, President, IFIP. Then the event was concluded with a vote of thanks.

Summary of the event

It was the first ever CSI State Convention that was hosted in GRIET. The theme was AI Driven Human life. We witnessed around 215 registrations from students of GRIET and several other colleges as well. The day started off with an inaugural ceremony which were preceded by several dignitaries. We had two key note speakers.

Key Talk speaker 1

Prof. Raghavendra Rao Chillarige

Professor, School of Computer and Information Sciences, University of Hyderabad, Hyderabad

Key Talk speaker 2

Prof. M. S. Prasad Babu Rtd. Professor, CSE Department, Andhra University, Vishakhapatnam, CSI Regional Vice President, Region V.

These erudite speakers enlightened us with their knowledge. This marked the conclusion of the inaugural ceremony which was followed by lunch. Post lunch events like Project Expo, Poster Designing, Web Designing, Code Debugging. All the students actively participated in these events and won laurels. The convention was closed with a validation ceremony where all the winners were announced and awarded.

INSTITUTE OF ENGINEERING AND TECHNOLOGY

COMPUTER SOCIETY OF INDIA

Summary of the event

The CSI Core Committee members had the opportunity to visit T-Hub. It was an hour visit where people were given great insights about entrepreneurship and the start-up culture in India. Ms. Aisheeta, T-Hub's community lead and a person having a great experience with various startups, accompanied and educated the students with the rich history of T-Hub. She stressed on an important point that whenever a person starts a venture there is only 3% chance of the venture to be successful. This happens because most of the start-up aspirants directly jump into developing the product by skipping the validation phase of the start-up. People got to know how T-hub is paving way for start-ups and helping them to reach great heights. The way Hyderabad is shifting from an emerging startup ecosystem in such a great pace is really mind blowing. Finally we were able to have a small tour of the T-Hub office and then we headed out to take a group picture.
