8. Summary of the Event	**The Resource persons conducted interactive sessions as follows:** •**Institution Work Culture**: College Administration, Academic rules and regulations, Commitment for adopting to the Institute work culture, Commitment towards teaching profession. •**Self and Profession Awareness**: (i)Self-Understanding, Self-evaluation skills for continuous progress, Necessity of harmony with Seniors/

	Peers/subordinates/students and other stake holders of the Institute. (ii)Understanding of Institution as a whole, Understanding the Profession, Positive Attitude and Aptitude development for becoming an effective professional teacher. •**Innovative Teaching**: (i) Role of teacher in teaching learning process at Technical Institutions, Teaching profession in Covid/ Post- Covid scenario, how to function as an effective faculty in dynamical academic environment. (ii)Innovative Teaching Learning Methods for Engineering Education. •**Effective classroom management:** Teaching-Learning Management System in Technical Institutions, Effective classroom management using new trends and technologies in teaching. Advanced Learning and Teaching Methods. •**Student Mentoring**: Teacher-student relationship, Understanding students and parents. Motivation and Counselling methods by teachers for improvement of academic performance and self-growth of students. •**Institution Growth and Self Growth:** (i)Awareness and understanding of Institute Growth. Awareness and Understanding of Self-Growth, Correlation between Intuition-Growth and Self Growth, (ii)Initiation and Involvement in the College and Department academic development programs. Developing Leadership qualities to reach new heights in the organization. •**Assessment and Evaluation strategies**: Model of Examination and Evaluation system, Significance and Role of a teacher in the process of examination and evaluation, Maintenance of confidentiality and secrecy, Reforms in the examinations and evaluation processes. •**Curriculum Design and Development**: Importance of Curriculum, Curriculum Design with rules and regulations. Role of a Teacher in Curriculum Design, Development and Implementation. •**OBE system and its implementation**:(i) What is OBE? Importance of OBE system and its implementation in Technical Institutions. (ii)Computation of PEOs, PSOs and COs. Rubrics-Analysis. Necessity and Preparation of Course Files and other academic record. •**Finishing School**: Results and Analysis, Remedial classes, Avoiding of default and discontinuation. •**Accreditations and Evaluation of the Institutions:** (i)Importance of Accreditation, Overview of NBA, Overview on NAAC, (ii)Assessment Procedures, NIRF Ranking-significance. **Accreditations**: NBA and NAAC accreditation, SAR Preparation, preparations for Inspections. •**R&D Activities:** Writing Research Papers and Projects/ Resources for research and creative activities. •**National Education Policy 2020**- Technical Education: Features of NEP-2020, Relevance with Technical Education, Stake Holder Perspectives of NEP 2020. •**Examinations and Evaluations**: Presently exiting examinations and evaluation procedure and faculty role. **E-content-MOOCS:** Preparation of E-Content, uploading into G-Classroom and use MOOCS for Teaching and Learning process **T&P Activities**: Familiarization of T&P Activities at GRIET for newly joined faculty **CDD & CO PO Attainments:** Objectives of the Curriculum Design and Development. Role of CO and PO attainments in fulfilling the objective of the CDD. Computation of Cos and POs **Optimal Teachings Techniques**: Student centered Teaching and Learning methods

	Entrepreneurships'- Innovations and incubations: Role of innovation, New Ideas and Technology, Problem Solving Mind-set, R&D and Market Survey, Adaptability & Networking, and Incubation Technology. . The program was successfully conducted and certificates were awarded to all eligible participants. The Feedback was Excellent.

Summary of the Event (prepare day wise report in detail)	Awareness program on High performance Computing by Dr. T.Satyanarayana Murthy, associate professor of IT department, CBIT and also master trainer of C-DAC addressed the workshop. There is very good response of faculty and students. Three sessions were conducted. In session 1 introduction to super computers and high performance computing has been discussed. Session 2 focussed on OMP basic commands and live demonstration was given. Session 3 MPI has been discussed. Matrix multiplication program of 3000 x 3000 has been live demonstrated with Param super computer credentials.		
POs attained with this Event (number and description)	**PO8:** Apply professional and ethical responsibility with the norms of engineering.		

	PO9: Contribute as individual and able to work with any multi-disciplinary teams for achieving the targeted goal towards organizational growth. **PO10:** Compile and communicate, the developed complex engineering process by creating effective documentation, presentation, and assessment report, and communicate the entire advancement to the next successive hierarchical level. **PO11:** Converge the Engineering, knowledge and skill, to manage multi-disciplinary environmental projects within the permitted financial boundary and time. **PO12:** Recognize and predict the future technological change, and adopt to focus on preparing and engaging in life-long learning.

He is a qualified instructor for various courses including CISCO, RedHat Linux, PaloAlto Networks, Blue Prism and Amazon AWS courses. There is very good response of faculty. Sessions were conducted for five days. In Day 1: Introduction to CN Task-1**:** Implement the following Data Link Layer framing methods: a) Bit stuffing b) Character-stuffing c) Character count. Task-2**:** Implement the following Data Link layer protocols**:** a) Simplex protocol b) Stop and Wait protocol c) Sliding Window protocol Task-3: Design a program to implement the following: a) Shortest Path routing protocol b) Distance Vector routing protocol c) Token Bucket algorithm Day 2 :		

	Task-4: Develop a program to implement the following: a) DES algorithm b) RSA algorithm Task-5: a). Configure network devices, such as hubs and switches within a network topology using Packet Tracer software).Construct a single LAN and understand the concepts and operation of ARP. Day 3 : Task-6: Configure and implementation of a Switch within a Network using Packet Tracer. Learn and implement basic commands of Computer network like PING, trace route, nslookup etc. Task-7:a). Configure and implementation of a Router within a Network using Packet Tracer. b). Configure and examine Network Address Translation (NAT). Day 4 : Task-8:a).Configure network topology to implement VLANs with using Packet Tracer software. b).Configure network topology and implement static routing using Packet Tracer Software. Task-9: a). Configure network topology and implement dynamic routing protocol such as RIP, OSPF etc. using Packet Tracer. Task-10: Configure DHCP Server in the Network using packet tracer software. Configure a remote login using SSH and Telnet. Day 5 : Task-11: Establishing a Web Server Connection Using the PC's Web Browser, .Install Wire shark and view i). Network Traffic. ii).Wired and wireless NIC information. iii).Examine Ethernet Frames Task-12**:** Adding IoT devices to Smart Homes using Packet Tracer b). Connect and Monitor IoT Devices using Packet Tracer The program was successfully conducted and certificates were awarded to all eligible participants. The Feedback was Excellent.
