**LIST OF NATIONAL/INTERNATIONAL WORKSHOPS, FDP, TRAINING
PROGRAMME CONDUCTED**

S.No.	Program Title	Type of Program	No. of Participants	Faculty Coordinator	Duration of the Program
1	Geometric Spanners in Wireless Networks	Guest Lecture	76	Dr. Y Krishna Bhargavi	18-04-2023 to 18-04-2023
2	Women leaders of tomorrow!	Seminar	115	Dr. G. Susmitha valli	17-02-2023
3	Infosys SpringBoard Awareness Session	Training Program	102	Dr. G. Susmitha valli	02-01-2023
4	Two day workshop on problem based learning	Workshop	42	Mr. Krishna Chythanya. N	12-12-2022 to 13-12-2022
5	Transforming India with Unmanned Aerial Vehicles & Drones	Training Program	145	Dr. G Ramesh	26-08-2022
6	FDP on BlockChain Technology and the Future of CyberSecurity	FDP	79	Dr. G. Susmitha Valli	25-05-2022 to 04-06-2022
7	One Day Technical Seminar on the Great Application Security	Technical Seminar	117	Dr. G. S. Bapiraju	16-11-2021
8	NITTT Module 5 - Technology enabled Learning and Lifelong Self Learning	FDP	161	Dr. K. Madhavi Dr. Y. VijayaLata Dr. G.Karuna	13-09-2021 to 18-09-2021
9	An Insight to CryptoCurrency: Block Chain and BitCoin for Beginners	Webinar	80	Dr. Y. Vijayalata	17-06-2021
10	Cyber Sakhi	Webinar	80	Ms. T.V.Suneetha	29-04-2021
11	Big Data Overview	Guest Lecture	67	Ms. B. Rupa	19-01-2021
12	Industry Trends in Testing: Tools and Career	Guest Lecture	97	Mr. Krishna Chythanya. N	06-01-2021
13	Designing Miniprojects101	Webinar	45	Dr. Y. Vijayalata	06-09-2020
14	Workshop on Git and GitHub	Webinar	100	Dr. K. Madhavi	02-08-2020
15	Pitching Innovative Ideas	Webinar	102	Dr. Y. Vijayalatha	20-04-2020

16	IEEE Xplore- Boosting Every Aspect of YOUR Career	TechTalk/Webinar	140	Dr. Y. Vijayalatha	06-04-2020
17	SmartQA Webinar(Knowledge Sharing Session)	TechTalk/Webinar	75	Dr.K.Madhavi	05-04-2020
18	Fifth Generation Aircraft Avionics	TechTalk/Webinar	62	Dr. Y. Vijayalatha	02-04-2020
19	IMPACT – Motivational Talk	Tech Talk	153	Dr. K.Madhavi	22-02-2020
20	BIG DATA	Guest Lecture	66	Ms. B.Rupa	19-02-2020
21	CITIZENCHAT	Guest Lecture	63	Dr. G. N. Beena Bethel	21-01-2020
22	Hands on Reverse Engineering	Guest Lecture	75	Dr. S. Govinda Rao	20-12-2019
23	R - Programming	Workshop	39	Dr. G. Karuna	09-11-2019
24	Cyber Security	Guest Lecture	181	Ms. B.Rupa	10-09-2019
25	Navigating To Build A Career In Autonomous Driving/Artificial Intelligence	Tech Talk	268	Dr.Y. Vijayalata	06-08-2019
26	Neuro science in Artificial Intelligence	Tech Talk	8	Dr. Y. VijayaLata	20-07-2019

GUEST LECTURE
on
"BIG DATA"
by
LEELA LAKKIMSETTY
MANAGER, CAPGEMINI

Date: 19 FEBRUARY 2020 Time: 1:30PM-3.00PM Venue: SEMINAR HALL, CSE BLOCK

Under the aegis of the
Pandit Madan Mohan Malaviya
National Mission on Teachers and Teaching,
MHRD, Govt. of India

on

09 November 2019

Conducted by the

Teaching Learning Centre (ICT).

Supported by FOSSEE & Spoken Tutorials
at

IIT Bombay

J. Ravera

R-Course Instructor

Prof. Radhendushka Srivastava
Department of Mathematics
Indian Institute of Technology Bombay

Project Coordinator

Prof. Kannan M. Moudgalya
Department of Chemical Engineering
Indian Institute of Technology Bombay
Powai, Mumbai 400076

is needed to go to Remote Centres to participate in this test. The duration of the test will be less than one hour (about 30 to 45 minutes). It will have MCQ, simple calculations, and simple programming type questions using R. One can do the calculations on R, and answer the questions. There will be NO descriptive questions.

11. How to apply?

Enrollment will be strictly online, and no other mode of application will be entertained. The last date of registration is 08 November 2019, 12.30 pm. The URL for registration is: <https://www.iitb.ac.in/nmmt/announcements.html>

Register on the Spoken Tutorial Website:

1. Before the workshop, participants should register on <https://spoken-tutorial.org/>
2. Fill up the registration form and submit.
3. An email will be received.
4. The account should be activated by clicking the link in the email.
5. The Username and Password should be noted. This is an extremely important step.
6. One needs the above information to post questions on the forum, which will be explained at the time of the workshop.

Note

- Neither IIT Bombay nor the Remote Centre will bear the travel expenses of the participating representatives. There shall also be no accommodation provided to the participants.
- All participants are required to bring earphones, as they will have to listen to video tutorials. Without earphones, the workshop will not at all be effective.
- Computers to practise Spoken Tutorials and to learn R language will be available at Remote Centres. But if they wish, participants can bring their own laptops.

12. Address for communication

Dr. Kalpana Kannan
Project Coordinator, ESOS Project
Department of CSE, Kanwal Rekhi Building
Indian Institute of Technology Bombay
Mumbai - 400 076

Tel.: +91-22-2576 4989 Email: goutreach@iitb.ac.in

- 5. Teaching faculty
• Prof. Radhendushka Srivastava, Department of Mathematics, IIT Bombay
• Prof. Kannan M. Moudgalya, Department of Chemical Engineering
• FOSSEE and Spoken Tutorial Teams, IIT Bombay

6. Course Fee

Every participant has to pay Rs. 100 as the course fee to IIT Bombay at the time of online registration. On the day of the workshop, i.e. on 09 November 2019, they have to pay Rs. 400 to the Remote Centre that they would be attending, to defray the cost of organising the workshop, lunch, and coffee/tea. Please note that the registration fee once paid is neither refundable nor adjustable under any circumstances.

7. Who should attend?

As this workshop is not subject-specific, teaching faculty from all colleges (engineering, sciences, arts, commerce, management, law, medicine, etc.), polytechnic colleges, ITIs, schools, can attend. Teachers registered in any Masters programme, and also all Research Scholars can also participate.

8. Location and Venue

Workshop will be conducted on Saturday, 09 November from 9.30 AM to 6.00 PM at select Remote Centres in Bombay. This workshop will be conducted through a mode, using both live video conferencing facility and hands-on sessions using Spoken Tutorials. A workshop schedule will be available soon.

9. Certification

Certificates will be provided to all participants on successful completion of the workshop, in an electronic

10. Test and Certificates (Optional)

Two weeks after the workshop on 9 Nov. 2019 (unannounced), a free online test will be held. Information will be sent through email addresses, along with required links. All participants are asked to take this test from their own locations - there

EVENT SUMMARY REPORT

Nature of the Event (Workshop / Seminar / Guest Lecture / Tech Talk/ Training Program / Presentation/Conference)	Guest Lecture		
Title / Theme of the Event	"Geometric Spanners in Wireless Networks"		
Dates on which Event is held	From	To	No. of Days
	18/4/2023	18/4/2023	1 day
Name of the Organization	GRIET		
Name of the Participants	III B. Tech. - CSE		
Summary of the Event (prepare day wise report in detail)	Dr.S.V. Rao, Professor in Department of CSE, IIT Guwahati delivered lecture on geometric spanners in wireless networks. The following topics are discussed: Applications of Sensor Networks Types of Routing Protocols Network Model for Geometric Spanner Examples of Geometric Spanner		
POs attained with this Event (number and description)	PO 3: Design/Development of Solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental considerations. PO 5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations. PSO 2: Industry oriented technical skills: To foster industrial focused technical skills in Computer science and Engineering through value added courses and, to create a futuristic equipped professional.

EVENT SUMMARY REPORT

Nature of the Event	Workshop
Title / Theme of the Event	Problem Based Learning
Details of the Organizing Team	Dr.K.Madhavi, Professor & HoD, CSE –Convener, Mr. N. Krishna Chythanya, Asst.Prof., CSE – Coordinator, Mr. K. Chandramouli , Asst. Prof., CSE – Co coordinator.
Date on which Event is held	12 th – 13 th December 2022.
Details of the Speaker	Dr.Vikas Vital Shinde Director, PBLCOE Vishwaniketan. Pune Maharashtra.
Target Audience	Teaching Faculty of GRIET.
Summary of the Event	<p>The Workshop was more focusing on advocating Problem Based Learning pedagogy in engineering education. The speaker is a first Doctoral Degree holder from India in PBL area. During workshop the following points were covered.</p> <ol style="list-style-type: none">1. Need of PBL2. PBL design for a Course3. Assessment Design and Challenges4. Creating Sustainable PBL culture.5. PBL practice for NEP2020.
POs attained with this Event (number and description)	<p>c) Ability to design a system,component, or process to meet desired needs with realistic constraints.</p> <p>g) Ability to communicate effectively</p> <p>i) Recognition of the need for, and an ability to engage in life-long learning.</p> <p>l) Ability to create and or use Computer Science and Engineering related software tools.</p>

Approved by AICTE, New Delhi - Permanently affiliated to JNTUH, Hyderabad

15/12/2022.

Dr. Vikas Vittal Shinde,
Director, PBL COE,
Vishwanikentan iMEET, Khalapur.

Respected Sir,

Greetings for the day..

It gives me immense pleasure in writing this letter of thanks for the valuable contributions done by you as a resource person of 2- Day Workshop on Problem Based Learning (PBL) organized by department of CSE-GRIET during 12th-13th Dec. 2022.

On behalf of GRIET - Management, Administration and Staff, I take this opportunity to place on record our heartfelt thanks for your excellent sessions which introduced the concept of PBL to our faculty. The activities you conducted were very involving and the one on one discussion you held gave clear insights for the participants. The participants enjoyed your sessions thoroughly and the same is visible in the pouring in positive feedback we got. We believe, with this initiation and direction from you we will also surge ahead in implementing PBL in our college.

Looking forward for your continuous support in our future activities also.

Regards,

Dr.K.Madhavi,
CSE-HoD
GRIET-Hyd.

CIRCULAR

This is to inform all the HoDs that, a 2-Day Workshop on **PROBLEM BASED LEARNING** is being organized by the department of Computer Science and Engineering during 12th – 13th December 2022. In this connection the HoDs are hereby asked to nominate minimum 5 faculty members from the department and advice those to attend all the sessions without fail. Total number of participants allowed is between 50-60 candidates. Hence, bigger departments like CSE can nominate more faculty members. There is no registration fee. The list of faculty nominated is to be shared with Workshop Coordinator, earliest by this Friday i.e. 9/12/22.

Dr. Vikas Vittal Shinde,
Director, PBL COE,
Vishwanikentan iMEET, Khalapur.

Respected Sir,

Greetings for the day..

On behalf of Gokaraju Rangaraju Institute of Engineering and Technology-Hyd, I take the privilege of requesting your kind consent to be as a **Resource Person** for a 2-Day Workshop or **Problem Based Learning (PBL)** being scheduled during 12-12-2022 to 13-12-2022. We would be glad to take care of hospitality and local logistics required.

We request you to contribute in taking the idea of PBL in to the thoughts of our faculty and guide us to grow in this direction.

Looking forward for an early, positive decision from you.

Regards,

Dr.K.Madhavi,

CSE-HoD

GRIET-Hyd.

Convener for PBL Workshop

To,
The Principal,
GRIET-Hyderabad.

30/11/2022

Respected Sir,

Subj: Proposal to organize a 2 day Workshop on Problem Based Learning --Tentatively/ during 12th - 13th Dec 2022 -Permission and Sanction of amount--Req -Regd.

I, the undersigned would like to bring to your kind notice the following request. As per your guidelines discussion was held with resource person Dr. Vikas Vittal Shinde, Director-PBL VIMEET-Pune, to conduct a 2 Day Workshop on Problem Based Learning and the resource person has kindly given consent to block 12th-13th December 2022. In this connection, I request your kind self to permit us to organize the workshop under CSE department for the benefit of nominated faculty of GRIET. The details of the estimated expenditure are as shown below.

SLNo.	Title of Expenditure	Estimated cost in Rs./-
1.	Honorarium of Resource Person	15000
2.	Tea and Snacks (Twice a Day for 50 participants)	5000
3.	Bouquets	500
4.	Stationary required for activities (Sketch pens, pencils, Drawing sheets etc)	3500
4.	Miscellaneous	1000
	Total	25000/-

Hence, It is here by requested to sanction permission and also disburse the amount of Rs.26500/- (Rupees Twenty Five Thousands only) for smooth conduction of the event.

Yours faithfully

Krishna Chy
Krishna Chythanya Nagaraju
Asst.Prof.- CSE - GRIET
Coordinator for Workshop.

Sir,

Request for Consent-- 2-Day Workshop on PBL-GRIET-During 12-13 Dec 2022

4 messages

N Krishna Chythanya N <nkrishna1397@grietcollege.com>
to: director.pbl@vishwaniketan.edu.in

Wed, Dec 7, 2022 at 8:33 AM

Respected sir,

Greetings for the day..

This is with reference to the phone conversation we had earlier.

I am Krishna Chythanya Nagaraju, Asst Prof., GSE GRIET, attended your session in a nearby college in Hyderabad. I wish to place on record that your session was really amazing, intriguing and paved a path for many to explore Problem Based Learning. After returning back in discussion with our higher authorities, it was decided to organize a 2-Day Workshop on Problem Based Learning for the benefit of faculty in GRIET.

On behalf of my authorities, with their permission, I request your kind consent to be a Resource Person and conduct a 2-Day workshop on Problem Based Learning.

The dates being proposed from our side are as follows : 12 - 13 December 2022.

Bokaraju Rangaraju Institute of Engineering and Technology is a premier institute in Telangana and you may be pleased to know we are in the Silver Jubilee year of college.

For more details about college : www.griet.ac.in.

Anticipating an early positive reply.

Vikas Shinde <director.pbl@vishwaniketan.edu.in>

Thu, Dec 8, 2022 at 4:20 AM

Dear Sir,

Thanks for invitation. I accept it. Please find a copy of the proposal in the attachment.

Probably, I will arrive one day before, on 11th Evening. Exact details of my travel will be sent to you soon.

Thanks for mail.

Summary of the Event	<p>A technical seminar is organized by CSE Department on 17/11/2021 for full day with a student strength of 120 in which a clear explanation is given regarding how and what is application security is all about. What are the vulnerabilities that arise and how they can be identified and solved. There are different kinds of vulnerabilities as stated below</p> <ol style="list-style-type: none"> 1. DVWA: <u>Damn Vulnerable Web App (DVWA)</u> is a PHP/MySQL web application that is damn vulnerable. The app is divided into sections for different types of vulnerabilities. The best thing about DVWA is it has <u>lessons/guidelines</u> on how to exploit a vulnerability. 2. Webgoat: <u>WebGoat</u> is a deliberately insecure application that allows you to test vulnerabilities commonly found in Java-based applications that use common and popular open source components. 3. Juice Shop: <u>OWASP Juice Shop</u> is probably the most modern and sophisticated insecure web application. It is written entirely in JavaScript (Node.js, Express, Angular). 4. Metasploitable: Metasploitable is a vulnerable virtual machine intended for practicing taking over machines. Intended to be practiced with metasploit- the ultimate vulnerability exploitation tool, this vulnerable VM is one of the most enjoyable ones to play with. It has three versions: <u>Metasploitable:</u> Released in 2010, this one is quite old. A lot of the vulnerabilities are not valid anymore. <u>Metasploitable 2:</u> Released in 2012, this one is more beefed up with vulnerabilities. <u>Metasploitable 3:</u> This one is the latest version and the one you should be 				

	<p>focusing on.</p> <p>The difference between versions 2 and 3 is that in metasploitable 3, you will also get to practice on windows environments. Metasploitable 1 and 2 are only Linux based.</p> <p>5. Security Shepherd: The <u>Security Shepherd</u> Project is a web and mobile application security training platform. This is the only app in this list that can provide a flavor of mobile app pen-testing.</p> <p>6. bWAPP: <u>Buggy web app (bWAPP)</u> is also PHP/MySQL web app. It has over 100 vulnerabilities for you to test.</p> <p>7. DVNA: <u>Damn Vulnerable Node Application</u> is a lesser-known vulnerable web app. Do this only after you have done Juice Shop.</p>

Summary of the Event	<p>IEEE GRIET SB under the Computer Society chapter organized a webinar on "An Insight to Cryptocurrency: Blockchain and Bitcoin for Beginners" by Mr. Ashutosh Kashyap. The objective of the session was to help students obtain an insight into the world of cryptocurrency. The session was held on 17th June 2021 from 5:00 PM to 6:30 PM using the platform "GoToMeeting".</p> <p>The speaker of the session, Mr. Ashutosh Kashyap is an entrepreneur, a risk analyst and a financial modeler. He is the founder of Ashutosh Kashyap Enterprises LLP and the Crypto Knight community at the age of 23. He has also delivered a TEDx speech on "Your network is your net worth" in NMIMS Shirpur Campus Maharashtra. He is on a mission to improve the efficiency of student entrepreneurs by enabling self-sufficiency through reducing the dependability on external investments.</p> <p>Mr. Ashutosh Kashyap began the session by asking an interesting question: "What came first? Blockchain or Bitcoin?". The answer to this is Bitcoin. Blockchain was later developed on the applications of Bitcoin. Blockchain technology is now considered to be the second layer over the Internet. He stated that if Blockchain is a sea, then Cryptocurrency is a river in that sea. He exclaimed that the information around Blockchain is still very confusing and new to the world. Throughout his presentation, he answered the most common questions around Blockchain.</p> <p>1. Why do we need to know about Blockchain?</p> <p>The speaker explains the importance of Blockchain using the story of the Honduras bridge. The bridge was created by the world's greatest architects and designed to withstand regional</p>				

hurricanes and it fared out exactly as planned. However, the problem was that the river it crossed had moved and the roads leading from it were destroyed. The bridge could not adapt to the new environment and was rendered useless.

The history of currencies began with the Barter system which was replaced by Gold because it was tough to determine the value of a product. Gold was replaced by Fiat currency because it was tough to directly exchange gold at the store.

However, in this system, the government knows all the financial details and has complete control over the chain. He says that change is inevitable and Blockchain is the next stage of currency.

2. Can you give us a brief history of blockchain and cryptocurrency?

The first 4 decades of the Internet have been able to give us amazing things but it still misses some things. The identity of someone with whom we met online cannot be verified. Trust cannot be gained and Transaction cannot be done without validation. Two and a half billion people still do not avail bank services. The speaker says that Blockchain is the answer to all problems the Internet couldn't fix.

He defines Blockchain as "a time-stamped series of immutable records of data managed by a cluster of computers not owned by any single entity". Each of these blocks of data is secured and bound to each other using cryptographic principles. The blockchain network has no central authority.

3. Bitcoin vs Gold

Gold is scarce, durable, portable, divisible, fungible and hard to counterfeit. Bitcoin has more properties in addition to all the properties of Gold. Bitcoin's supply is fixed at 21 million while fresh reserves of gold can still be found. It is more divisible than Gold and it can be sent to someone similar to sending an email.

Summary of the Event	<p>Department of CSE organized a guest lecture on "Big Data Overview" for students of II&III B.Tech CSE,IT and ECE. Event started in the afternoon at 3:00 P.M. through online mode via Microsoft Teams platform. Sri. Yashowardhan Sowale, Vice President, Capgemini was invited as a chief guest. Mrs. B.Rupa faculty and co-ordinator for event introduced the speaker to the students and the faculty. Dr.K.Madhavi, HOD of CSE and Mrs.Rashmi, HR in Capgemini participated in event and addressed our students. The Event started by giving introduction to Big Data. He also explained the significance of Big Data, application areas and real time applications. Mr.Yashowardhan shared many ideas with students and faculty as well. The lecture provided an interactive atmosphere between the resource person and the participants. He has shared many experiences about his working projects in Capgemini to the participants. Questions were been asked by him and got good answers from students and students also asked few questions he gave good explanation to those questions with examples. The Event got ended on a happy note by token of thanks given by B.Rupa.</p>

Summary of the Event	IEEE GRIET SB under the Computer Society organised a webinar on "Designing Mini Projects 101" by Mr. Krishna Chythanya. The objective of the webinar was to help students understand the process of making mini projects. The session was held on 6th September 2020 from 4.00 PM to 6.00 PM, using the				

	<p>platform GoToMeeting.</p> <p>The speaker of the session, Mr. Krishna Chythanya, Asst. Professor, Department of Computer Science and Engineering at GRIET is currently pursuing PhD in the area of Neural Networks and Software Engineering. He has more than 16 years of teaching experience and has guided numerous projects. He has also conducted more than 10000 training hours for Competitive exams like Banks Clerks/POs, LIC, RRB and Personality Development.</p> <p>Mr. Krishna Chythanya began the session by addressing what a mini project is and why one should make it. To give an idea of what some of the major mini projects look like, he presented a video of a robotic arm made by a group of students. Decent knowledge of designing, coding and testing software was recommended by the speaker in order to achieve flexibility to work with a wide range of softwares. He also stressed on the importance of mini projects with respect to curriculum weightage.</p> <p>Over the course of the webinar, the speaker discussed in length the following areas one should consider before making a mini project:</p> <ul style="list-style-type: none"> • What is a project? • Significance of academic projects during job recruitments. • Advantages of making a good mini project. • With whom should one make a project? Any help from faculty? • How to get ideas for a project? • What are the most common technologies to consider while making a project <p>The session ended with a Q&A where students came up with doubts on budget, ideas for projects during pandemic etc,. The session was extremely informative and the speaker was successful at simplifying the process of designing mini projects for the students.</p>
<p>IRG (in rupees)</p> <p>Deposited A/C no A/C name and date and other details (enclose proof-A/C statement)</p>	-

Summary of the Event	<p>IEEE GRIET SB, under clusters, has organized a webinar on one of the core innovative technologies in AI - Natural Language Processing (NLP). Natural Language Processing is a field of Artificial Intelligence that gives the machine the ability to read, understand and derive meaning from naturally spoken human languages.</p> <p>The speaker for the webinar Gayathri Peesapati is a student of GRIET, pursuing 3rd-year B-Tech in CSE. She has graduated from the ISB Technology entrepreneurship program and has worked on multiple projects. She Gayathri gave a detailed overview of the prerequisite function of NLP which is Text Preprocessing. This essential function converts the text said by humans in natural language into a machine-readable format. Next, the speaker demonstrated the process of Text Summarization in NLP which enables users to extract a summarized version of the original data.</p> <p>Ms. Gayathri has illustrated functions and properties of NLP Text Summarization in a detailed fashion with relevant codes and output which boosted enthusiasm among participants to further explore the field of Natural Language Processing.</p>

Summary of the Event	<p>IEEE GRIET SB Computer Society conducted a webinar on "IEEE Xplore- Boosting Every Aspect of YOUR Career". The session was held on 6th April 2020 from 11.00 AM to 12.00 PM, using the platform Cisco WebEx meetings.</p> <p>The speaker of the session, Mr. Dhanukumar Pattanashetti is the client services manager at IEEE and works at the IEEE India office in Bangalore. Over the course of the webinar, the speaker discussed in length about the various ways IEEE Xplore can help a student with his/her career:</p> <ul style="list-style-type: none"> ● Projects: <p>To help the students understand better about how to start research and work on a project using the IEEE library, an example of a home automation system using IoT was used. Hence, it is recommended to filter the search results based on your requirement which may include: most cited, latest papers, etc. The search results can also be refined based on criteria like conferences, ebooks, journals, magazines, courses, early access articles and standards.</p> <p>It is advised to use different keywords which will help in narrowing down the results based on time, authors (affiliated to desired universities), etc. For new projects, Mr. Pattanashetti added that ideally it is required to go through a minimum of 50 articles. However, it is advised to refine the results using the advanced search and command search for relevance. Usage of Boolean commands like OR, AND is also very helpful. For related articles, NEAR operators can be used to reduce words in between keywords. An example was shown: "internet of things" NEAR/2" home automation".</p> <ul style="list-style-type: none"> ● Placements: <p>Before attending job interviews, students can use IEEE Xplore and go through various pages to get acquainted with companies. All the papers published by a company can be</p>				

	<p>viewed using author affiliated searches.</p> <ul style="list-style-type: none"> Recognition: Publishing papers while completing a Bachelor's degree is always appreciated. IEEE is known to be a great place to expand the network and start a career. All the papers and journals that have been published by a student using the Xplore library will come in handy during their placements, helping them get recognized by major companies. Higher Studies: Mr. Pattanashetti added that by using the Advanced Search page, one can search for different fields in different ranges. Experts can get in touch to guide students with their next step. All the profiles of the IEEE verified experts are available for choosing. Entrepreneurship: MIT Tech review publishes top breakthrough technologies. IEEE Xplore provides a platform to go through all the new and advanced technologies before starting entrepreneurship. Various journals on the same are available. Publications: The speaker briefed about browsing different journals and magazines and conferences using the required keywords to view the desired publications. They can be further filtered using the criteria mentioned before Competitive Edge: To stay current in the fast-changing world of technology, IEEE itself sends notifications using alerts. By setting and managing alerts, users are notified through mails whenever a new article is published on the selected topic. This helps to stay up to date with the growing technology and promotes efficient research. The session concluded with a Q&A where students and faculty came up with doubts on paper publishing, courses, membership details, benefits of being an IEEE member, executive committee queries, awards, etc.

Summary of the Event	<p>IEEE GRIET SB conducted a webinar on "5G Fighter Aircraft Avionics" under Geoscience and Remote Sensing Society. The webinar was held on 2nd April 2020 from 11:00 AM to 12:00 PM on the Zoom App. A fifth-generation jet fighter is a jet fighter classification used around the world that encompasses the fighter technologies. As of 2020 these are the most advanced aircrafts. The aircraft has the features of 4th Generation fighter designs and introduces all-new levels of performance, stealth profiles and advanced avionics with integrated digital flight systems and computer systems capable of networking with other elements within the battlespace for situation awareness.</p> <p>The speaker for the webinar is one of the directors of HAL, Dr. D. K. Sunil, HoD Communication, Strategic Electronics Research & Design Centre, HAL, Hyderabad.</p> <p>Dr. Sunil began the online session with the definition of Avionics and its evolution. It is the science of electronics when used in designing and making aircraft. Using a Powerpoint Presentation, he illustrated the pictures of different 5G Aircraft including Russia, the USA, Japan, South Korea, and China. Cockpits cover a significant part of Avionics.</p> <p>Next, he analyzed the differences between each generation of fighter jets from a technological perspective. Later, the 5G fighter features were reviewed:</p> <ul style="list-style-type: none"> ● Very low observability: A 5th generation aircraft is difficult to detect in the air due to its stealth technology. It exhibits very low radar and IR signatures (about 0.5 m^2) making it extremely tricky to detect in the air by enemy aircraft. Dr. Sunil added that they also have twin vertical fins which help in reflecting any incoming radar wave away. ● Ultra- Maneuverability: It has multi-axis thrust-vectoring engine allowing it to take very sharp changes or turns in directions (high turn rates and spin resistance) ● Supercruise: 				

	<p>A 5G fighter has a powerful engine that sustains supersonic flights (Mach >1) without the use of afterburners.</p> <p>Dr. Sunil added that IR sensors are cooled with liquid nitrogen for accurate reading and also to detect low levels. He then discussed the evolution in the avionics architecture of the fighter jet by describing briefly about:</p> <ol style="list-style-type: none"> 1) Independent Avionics (the 40s-50s) 2) Federated Avionics (the 60s-70s) 3) Integrated Avionics (the 80s-90s) 4) POST-2000: <p>The speaker explained the architecture of the Advanced Avionics in detail which included:</p> <ul style="list-style-type: none"> ● Integrated Control System ● Radio Electronic System ● Communication System ● Recording System ● Central Computer ● EW system ● DAS <p>The webinar concluded with a Q&A session where students cleared their doubts about data transfer, unmanned aircraft, hacking, sensors, etc. The session was engaging and very interactive. Students were very enthusiastic to participate and learn about the 5G fighter even during the lockdown crisis.</p>

Summary of the Event	<p>A guest lecture was conducted for CSE students under IEI student chapter CSE on 21st January 2020 in Room No. 1410 where 62 students participated (Both IEI and Non-IEI students). Topic was an app developed by IAAA Technologies, by name "CITIZENCHAT", which has been introduced to the student fraternity as it is quite useful for them. The key features of the app are listed below.</p> <p>CitizenChat expands the world of possibilities, connect with different post your projects or ideas, find your job or business. CitizenChat experience of connecting with friends. Our aim is to create a bridge beyond physical boundaries of the world. You can now interact not just with people situated across any place, directly from your mobile device.</p> <p>KEY FEATURES OF CITIZENCHAT:</p> <ol style="list-style-type: none"> 1. Chats: Communicate with your friends with exciting new features application. Share pictures, documents, voice notes, video notes, make make cool acronyms with your friends' names. We are sure you'd love 2. In App Translator: Our unique "In app chat translator" helps you sent or received in over 100 languages. Now you don't have to worry message that you received and the tiring experience of switching to message translated. We got you covered. 3. Near Me: This feature helps you to discover people nearby to you connect request and get connected instantly. Making friends is easy now 4. Global Search (Citizens): Not just people nearby, now you can anywhere in the world with hobbies similar to yours and speak your language

Summary of the Event	<p>IEEE GRIET SB conducted a technical talk on 6th August 2019 in the ECE seminar hall. The main intention of this session was to help construct a career in autonomous driving and artificial intelligence during a brief session by Matt Lubbers, Director of Systems Engineering at Voyage and Tara Van Dyken, Senior Talent Acquisition Leader in Amazon. Matt Lubbers briefed the audience about the working of artificial intelligence and its role in autonomous driving. Matt's session captivated a lot of students as it stimulated their interest in the subject. A panel discussion was held with Tara Van Dyken and Matt Lubbers along with Dr. Y. Vijayalata, Branch Counsellor of IEEE and Dr. L. Jayahari, Dean of Student Affairs. They shared their expertise on recruitment procedure and tips on how to build a distinct resume. Tara stressed on the importance of networking in the recruitment process. Later, an interactive session was held in which the audience expressed their doubts on their respective topics. The event was concluded by a vote of thanks and National Anthem.</p>

<p>Summary of the Event</p>	<p>IEEE GRIET SB and CSI collaborated and conducted the event “Technical Talk”, a talk that analyses the information regarding Neuroscience in Artificial Intelligence and its importance. The fields of neuroscience and artificial intelligence (AI) have a long and intertwined history. In recent times, however, communication and collaboration between the two fields has become a common place. By understanding biological brain, they could play a crucial role in building intelligent machines.</p> <p>The talk was conducted on 20th July 2019 from 10:30 A.M to 12:00 P.M. The session was very useful as the main purpose was to impart and expand knowledge on Neuroscience in Artificial Intelligence as it helps doctors, scientists and engineers in many ways.</p> <p>The event was started by Dr. Venkateshwarla Rama Raju, Principal of CMRCET. He is the principal investigator of DST funded project of Cognitive science research initiative entitled ‘A study of neuro medical diagnostics of cognitive impairment in case of Parkinson's disease using real-time multi-channel microelectrode recording system’. He has an astonishing number of achievements and has published over 180 papers in national and international journals and over 12 chapters in IFMBE Springer Nature proceedings. He is also a professional member of different scientific societies of engineering medical biology, computing etc.</p> <p>The speaker gave us an explanation on what basically is Neuroscience and what happens when Neuroscience and Artificial Intelligence mend together. he also answered the queries that students had.</p> <p>He discussed the importance of mathematics in Artificial Intelligence and Neuroscience. He explained about tremors, he told us that by sampling neural signal</p>				

of a part in the brain we can get to know the behaviour. One can gain some insight into what role that part of the brain might play, such as :

- **Action** is a potential which occurs when a neuron sends information down an axon, away from the cell body.
- **Cognition** is the mental action or process of acquiring knowledge and understanding through thought, experience and the senses.
- **Emotions** are thoughts related to activity in brain areas that direct our attention, motivate our behaviour and determine the significance of what is going on around us.
- **Thought** encompasses an aim oriented flow of ideas and associations that can lead to a reality-oriented conclusion.
- **Perception** is often analysed as a process in which causal events from the environment act on a subject to produce states in the mind or brain.

He explained to us about the insertion of a chip into the Subthalamic Nucleus (STN). He invented a recording system which displays the result in the form of pulses which can be helpful in identifying the affected area in a person. This took him 10 long years to complete it. He discussed his future research. At the end of the event there was a question and answer session when students and faculty interacted with the speaker. K. Madhavi, HOD of CSE spoke a few words regarding the technical talk and Coordinator of IEEE Dr. Y. Vijayalata gave a memento to Dr. V. Rama Raju. The technical talk ended with a vote of thanks.

IRG (in rupees)	-
Expenditure (in rupees)	Rs. 6000
Photographs of the event (Hard copy and Soft copy)	 

Proofs:

1. Certificates copies
2. Profile of Speaker
3. PPT/Material as applicable.etc.,

Dr. Venkateshwarla Rama Raju, Principal of CMRCET. He is the principal investigator of DST funded project of Cognitive science research initiative entitled 'A study of neuro medical diagnostics of cognitive impairment in case of Parkinson's disease using real-time multi-channel microelectrode recording system'.

A handwritten signature in blue ink, appearing to read 'K. Medhavi'.

Signature of HOD
