COGNIZANT EXPERIENCE

CVS Aetna_EGWP_EC_Testing – (May 2022– April 2023)

PROJECT DESCRIPTION- Employer Commercial Project – CVS Benefits Testing

TECHNOLOGIES- EZ Query, SFDC, EZ Test and Manual Testing

ROLES & RESPONSIBILITIES

- Working as a **Associate** in Quality Assurance (Java and selenium Automation) for Healthcare client in North America.
- Utilized a variety of testing methods and automation tools(selenium) to enhance productivity while manually verifying query and claims behavior.
- Comprehensively analyzed multiple client requirements, validating data accuracy using Excel queries. This involved careful examination of specifications to extract and verify data, ensuring its alignment with client expectations.
- Ensured proper behavior of Excel queries in preproduction environments according to requirements.
- To learn, acquire and effectively apply skills required to contribute to the delivery of client projects and other initiatives, as assigned by the business.
- Requirement Analysis: Understanding the functional aspects of the clients.
- Proficient in analyzing client requirements, validating data, and ensuring proper behavior in preproduction environments.
- Knowledgeable in medical insurance, healthcare, and various testing methodologies.

Efficient Task Execution:

- Raise clarifications / issues / concerns regarding work output to the lead on time
- Maintain effective working relationship (Interpersonal) with team members and

supervisors

- Addressed defects by raising concerns and seeking clarifications from Coders/BCC. This proactive approach ensured prompt resolution of issues, fostering effective collaboration and maintaining the quality of deliverables.
- Performed various Defects Management and Root Cause Analysis.
- Ensure appropriate classification and prioritization of tasks
- Comply with defined process during task execution
- Provide periodic task level updates as required.

Key Accountabilities

- Analysing the requirements, prepare test plan, test data to be used for testing
- Plan pull using EZ-Query and Observe the output using EZ Test
- Creating Test beds to validate the drug details and Insurance claim acceptance
- Worked on different functionalities of Drug Validation
- Validating of new and changes to existing benefit plans, pricing, and networks in the pharmacy claim adjudication system, consistent with the direction and intent set forth by the client
- Pre- and post-implementation claim testing and other configuration quality reviews to ensure accurate claim adjudication and adherence to standard and custom design requirements.
