Student Publications

List of Student Publications Details (2019-20)		
S.No	Student Name	Title of the Paper
1	Palakodeti Rohit	A suggestive model for rice yield prediction and ideal meteorological conditions during crisis
2	K. Sahithi	Improving the Quality of Facial Image by Integrating Semantic Patches and Supervised Learning Approach
3	Kantedi Prashanth	Improving Efficiency in Separating Blood Vessels from Retinal Images with Deep Learning Techniques
4	Bijjam Goutami	An Encrypted key Exchange Protocol to Secure Communication among Fog Nodes and the Cloud
5	Y. Phani Venkat Sai	Sensor Based Emergency Communication System
6	K. Ajay Kumar	A Survey on Secure Smart Shopping System
7	Y. Phani Venkat Sai	A Survey on Next Generation Emergency Communication
8	Katherashala Ajay Kumar	Face Recognition with OPENCV and Smart Shopping in Cloud Computing
9	Varshit Ratna	Smart Solution for Offline Maps and Navigation
10	A. B. Rohan	A Novel Video Game Recommender System using Content Based Filtering -Vidya
11	Nausheed Khan	Cluster Head Selection in Wireless Sensor Network Using Bio-Inspired Algorithm
12	B. Abhishek Reddy	Semi-Equalizing Load in Multi-hop Wireless Networks
13	R. Mounika	An Effective System to Detect Fake Research

Gokaraju Rangaraju Institute of Engineering & Technology
Department of Computer Science and Engineering
Student Publications

14	P. Geetanjali	A Survey on Large Scale Data Analysis on Human Activity Patterns for health prediction
15	Ravali Boorugu	Summarizing Product Reviews Using NLP Based Text Summarization
16	Ravali Boorugu	A Survey on NLP based Text Summarization for Summarizing Product Reviews
17	Kadam Priya	Extract Smoothing Images in Motion Video using Sensor Based Camera's
18	Boddu Srilatha	Identifying and Detecting offensive Language in Social Media
19	Tejaswi Satepuri	A Survey on Facial Expression Recognition Techniques
20	Maidam Manisha	Machine Classification for Suicide Ideation Detection on Twitter
21	M. Manisha	A Survey on Suicide Related Text Communication on Twitter
22	Katikela Haritha	Performance Assessment of ML Techniques for Detecting Intrusions in the Network
23	K. Haritha	A Survey on Detecting Network Intrusions Using Machine Learning
24	Priyanka Vemulavada	Accomplishing Data Integrity and Confidentiality in Data Markets
25	Gaddam Rajesh	A Secure and Robust Digital Image watermarking Techniques

Student Publications

List of Student Publications Details (2018-19)		
S.No	Student Name	Title of the Paper
1	B.Narendra	An Advanced Approaches for 3d Face Recognition
2	K.Vinod	A Better and Secure Cloud Storage for Public Auditing Using HLA
3	Pramodh Kasula	Automatic Personality Recognition of Authors Using Big Five Factor Model
4	Guduru Madhuri	A Survey Paper on Protocol Based Network Management System
5	P.Vivek Varma	Performance Evaluation of Unsupervised Algorithms on Morpheme based Authorship Clustering
6	Bodepudi Sai Purna	Holistic Optimization by Prefetching Query Results
7	V.Vinisha	Authorship Clustering in Style Based Classification
8	Katherashala Ajay Kumar	Face Recognition with OPENCV and Smart Shopping in Cloud Computing
9	Varshit Ratna	Smart Solution for Offline Maps and Navigation
10	Nausheed Khan	Cluster Head Selection in Wireless Sensor Network Using Bio-Inspired Algorithm
11	B.Abhishek Reddy	Semi-Equalizing Load in Multi-hop Wireless Networks
12	R. Mounika	An Effective System to Detect Fake Research
13	Okanti Apoorva, Y Mohan Sainath	Deep Learning for Intelligent Exploration of Image Details
14	G. Saikrishna, S. Akhilesh	Deep learning for Intelligent Investigation of Image Minute
